2. BACKGROUND:

New Era Canning Company of New Era, Michigan is recalling all cans of green beans and garbanzo beans in #10 cans (containing between 6 and 7 pounds) because they may have been processed under conditions which could have led to contamination by *Clostridium botulinum* bacterium spores, which can cause life-threatening illness or death.

The issues were uncovered in a FDA inspection of products that were in the company's possession. NO product has tested positive for the toxin and there have been NO cases of botulism reported from these products.

3. PRODUCTION DATES/IDENTIFYING CODES:

All cans of green beans and garbanzo beans in #10 cans produced between 01 January 2003- 22 January 2008

The codes on the affected product begin with the numbers "00249," or the letters "GREEN" or "GARB". This recall does not include Italian Green Beans because that is a different product.

This recall only affects the products in #10 cans, the majority of which were potentially sold nationwide to various food service customers. However these products may also have been purchased by consumers at retail stores. The code on the cans may be embossed (stamped into the metal of the can) or printed in ink on one of the metal can ends.

Examples of how a code may appear on a can of green beans are: "00249 2BH7FL", "00249 1515 2BH7FL", "GREEN 2BH7FL" or "GREEN 1515 2BH7FL". (These are not necessarily actual can codes).

Examples of how a code may appear on a can of garbanzo beans are: "00249 34F7LG", "00249 1515 34F7LG", "GARB 34F7LG" or "GARB 1515 34F7LG". (These are not necessarily actual can codes).
